Unlocked Books Benedek Lang 2010-01-01 During the Middle Ages, the Western world translated the incredible Arabic scientific corpus and imported it into Western culture: Arabic philosophy, optics, and physics, as well as alchemy, astrology, and talismanic magic. The line between the scientific and the magical was blurred. According to popular lore, magicians of the Middle Ages were trained in the art of magic in "magician schools" located in various metropolitan areas, such as Naples, Athens, and Toledo. It was common knowledge that magic was learned and that cities had schools designed to teach the dark arts. The Spanish city of Toledo, for example, was so renowned for its magic training schools that "the art of Toledo" was synonymous with "the art of magic." Until Benedek Láng's work on Unlocked Books, little had been known about the place of magic outside these major cities. A principal aim of Unlocked Books is to situate the role of central Europe as a center for the study of magic. Láng helps chart for us how the thinkers of that day—clerics, courtiers, and university masters—included in their libraries not only scientific and religious treatises but also texts related to the field of learned magic. These texts were all enlisted to solve life's questions, whether they related to the outcome of an illness or the meaning of lines on one's palm. Texts summoned angels or transmitted the recipe for a magic potion. Láng gathers magical texts that could have been used by practitioners in late fifteenth-century central Europe.

An Imprint Book "All the magic and awe of the first volume continues here ... just as so many imagine receiving their acceptance letters from Hogwarts, this clever, whimsical tale will have anyone looking for the portal to the Library of Ever." —Booklist (starred review) "Further proof that librarians are mighty in all universes." —Kirkus Reviews

Harlem Is Nowhere Sharifa Rhodes-Pitts 2011-01-01 A National Book Critics Circle Award Finalist and New York Times Notable Book of the Year, Harlem Is Nowhere brilliantly captures the essence of Harlem at a crucial moment in the neighborhood's history. For a century Harlem has been celebrated as the capital of black America, a thriving center of cultural achievement and political action. As gentrification encroaches, Sharifa Rhodes-Pitts untangles the myth and meaning of Harlem's legacy. Examining the epic Harlem of official history and the personal Harlem that begins at her front door, Rhodes-Pitts introduces us to a wide variety of characters, past and present. At the heart of their stories, and her own, is the hope carried over many generations, hope that Harlem would be the ground from which blacks fully entered America's democracy. Rhodes-Pitts is a brilliant new voice who, like other

significant chroniclers of places -- Joan Didion on California, or Jamaica Kincaid on Antigua -- captures the very essence of her subject. "No geographic or racial qualification guarantees a writer her subject . . . Only interest, knowledge, and love will do that -- all of which this book displays in abundance." -- Zadie Smith, Harper's
